

# SHAUN CHIKEREMA

Software Engineer

Email: sschikerema@gmail.com | Phone: +267 76 051 623

Gaborone, Botswana

Portfolio: <https://shaun-chikerema.vercel.app> | GitHub: <https://github.com/shaunChikerema> | LinkedIn: <https://linkedin.com/in/shaunchikerema>

## PROFESSIONAL SUMMARY

---

Software Engineer with one year of post-graduation experience building and deploying production SaaS platforms. Proficient in full-stack development with Next.js, TypeScript, and PostgreSQL. Built and deployed two live applications demonstrating full-stack capabilities. Strong foundation in API development, database architecture, and agile methodologies.

## TECHNICAL SKILLS

---

**Languages:** TypeScript, JavaScript, SQL

**Frontend:** Next.js 15, React, Tailwind CSS, Framer Motion, React Native

**Backend:** Node.js, Express, PostgreSQL, Supabase, REST APIs

**Tools & Infrastructure:** Git/GitHub, Docker, Vercel, Firebase, Redis, Puppeteer

**Development Practices:** Agile/Scrum, Multi-tenant Architecture, API Integration, CI/CD, Mobile-First Design

**Additional:** Authentication Systems, Database Optimization, Performance Monitoring, Cloud Deployment

## PROFESSIONAL EXPERIENCE

---

### Independent Software Developer | Jan 2024 - Present

Self-Employed, Gaborone

- Built and deployed **Keyat** ([keyat.vercel.app](https://keyat.vercel.app)) - real estate marketplace with multi-tenant architecture, advanced search, and role-based access control.
- Developed **PolicyBridge** ([policybridge.vercel.app](https://policybridge.vercel.app)) - insurance automation SaaS with automated PDF generation, workflows, and compliance tracking.
- Implemented secure authentication, REST APIs, and PostgreSQL with row-level security.
- Deployed production-ready apps on Vercel with monitoring and performance optimization.
- Designed mobile-first responsive interfaces optimized for local users.
- Managed full SDLC from requirements to deployment.
- Architected scalable multi-tenant database structures.

### Freelance Web Developer | 2023 - 2024

Various Clients, Gaborone

- Delivered custom web solutions for businesses and startups.
- Handled requirements gathering, development, and deployment.
- Worked directly with clients on technical specifications and features.
- Provided ongoing maintenance and support.

## EDUCATION

---

### BSc (Hons) Software Engineering with Multimedia | 2019 - 2024

Limkokwing University of Creative Technology, Gaborone

Graduated: November 2024

## KEY PROJECTS

---

### Keyat - Real Estate Platform
