

Shaun Chikerema

Software Engineer

shaunchikerema28@gmail.com · +267 76 051 623 · Gaborone, Botswana · shaun-chikerema.vercel.app · github.com/shaunChikerema · linkedin.com/in/shaunchikerema

PROFESSIONAL SUMMARY

Full-stack software engineer with experience building and shipping production systems across web, mobile, and AI. I've taken multiple projects from zero to deployment — including SaaS platforms, a real estate marketplace, and a full RAG pipeline — handling everything from database design to frontend and infrastructure. I work across the full stack and adapt quickly to new tools.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL

Also studied (academic coursework): Java, C/C++, PHP

Frontend: Next.js 15, React, Tailwind CSS, Framer Motion, React Native, Expo SDK 54

Backend: Node.js, Express, FastAPI, PostgreSQL, Supabase, REST APIs, Redis

AI / ML: LangChain, pgvector, Gemini Embeddings, Groq (Llama 3.3 70B), RAG pipelines

Mobile: React Native, Expo SDK 54, expo-av, expo-media-library, AsyncStorage, EAS Build

Tools & Infra: Git/GitHub, Docker, Vercel, Firebase, Puppeteer, Railway, GitHub Actions

Practices: Multi-tenant Architecture, REST API Design, CI/CD, Mobile-First Design, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer

Jan 2024 – Present

BITROOT · Gaborone, Botswana

- Independent software engineer operating under BITROOT — building and shipping full-stack SaaS products and client solutions end-to-end.
- Shipped seven production projects from scratch: an AI/RAG pipeline, two Android apps, two SaaS platforms, a real estate marketplace, and a client marketing site.
- Built a full Retrieval-Augmented Generation (RAG) system in Python — scraping, chunking, embedding with pgvector, and grounded LLM responses with Gemini + Groq.
- Developed two Android apps (BlackDice music player, Yonder audiobook player) using React Native, Expo SDK 54, and EAS Build.
- Designed multi-tenant database schemas with row-level security, role-based access control, and audit logging.
- Deployed all projects to production on Vercel and Railway with CI/CD pipelines, performance monitoring, and environment management.
- Delivered Paragon Insurance Brokers — a live commercial marketing site for a licensed NBFIRA broker.

Freelance Web Developer

2023 – 2024

Various Clients · Gaborone, Botswana

- Delivered custom web solutions for local businesses and startups.
- Handled requirements gathering, development, and deployment end-to-end.
- Worked directly with clients on technical specifications, features, and ongoing maintenance.

KEY PROJECTS

Askragify — AI Engineering · Python + React

- Full RAG pipeline: scrape any URL → chunk → embed with Gemini → pgvector similarity search → grounded answers via Llama 3.3 70B (Groq).
- FastAPI backend deployed on Railway; React frontend on Vercel.

- Full conversation history with inline source citations.

Keyat — Real Estate Platform · [keyat.vercel.app](#)

- Multi-tenant property marketplace for buyers, sellers, and agents with role-based access control.
- Advanced property search with filters, live listing updates, and agent analytics dashboard.
- Secure authentication, encrypted data, and payment-ready architecture.

PolicyBridge — Insurance Automation SaaS · [policybridge.vercel.app](#)

- Enterprise SaaS automating policy workflows, renewal tracking, and compliance logging for insurance brokers.
- Automated PDF generation, multi-tenant broker management, and bulk document processing.
- Audit trail, notification system, and client portal with dashboard.

BlackDice — Mobile App · Android Music Player

- Offline-first Android music player scanning device storage via expo-media-library.
- Vinyl-themed UI with spinning animation, EQ bar visualizer, persistent MiniPlayer, and queue management.

Yonder — Mobile App · Android Audiobook Player

- Streams LibriVox public-domain audiobooks with chapter navigation and persistent progress tracking.
- Playback speed control (0.5×–2×), sleep timer, bookmarks with timestamps, persistent MiniPlayer.

Paragon Insurance Brokers — Client Work · Marketing Site · [paragoninsurancebrokers.co.bw](#)

- Marketing site for a licensed NBFIRA broker with WhatsApp quote request integration and provider showcase.
- Scroll-triggered animations, responsive mobile navigation, multi-page site with contact & about sections.

EDUCATION

BSc (Hons) Software Engineering with Multimedia

Limkokwing University of Creative Technology · Gaborone, Botswana · 2019 – 2024 · Graduated: November 2024

ADDITIONAL INFORMATION

Availability: Immediate

Languages: English (Fluent)

Open to: Full-time roles, Remote opportunities, Contract work

Portfolio: Seven live production projects available for demo
